TURBO SUCTION HOSE

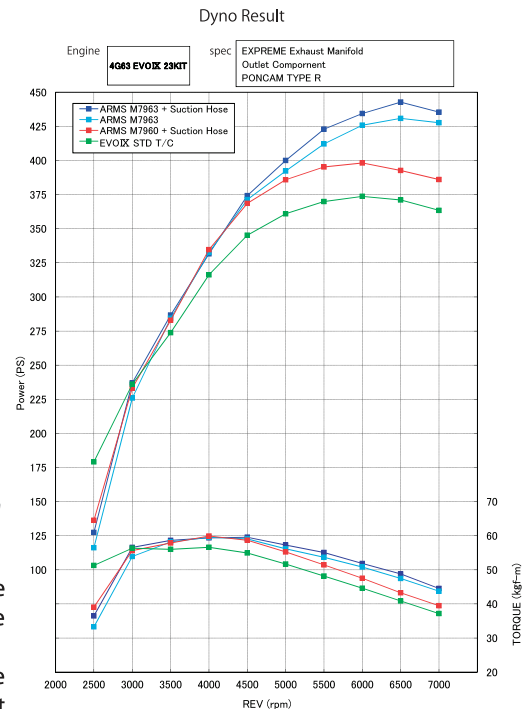

for 4G63 Evo.7-9

Dramatically improves inlet air flow!

TOMEI Turbo Suction Hose Kit for 4G63 EVO7-9 has been designed to maximize the air flow with increased chamber volume and optimized structure eliminated the bellows shape seen on STD hose.

Its funnel-shaped turbo side end and the increased air flow together unleash the true performance of combined turbo, from STD to high performance after market turbo such as TOMEI M7963.

SPEC

	Bellows	Volume (Measured value)	Suction Hose Diameter(φ)	
			Air cleaner side	Turbo side
STD	YES	1130cc	80	64
TOMEI	NO	1560cc	80	64

Its perfect bolt-on design allows direct fit to the stock MAF sensor and either ARMS / STD turbo, guarantees stress free easy installation!
