# TIMING BELT

Strengthened Timing Belt 1JZ / 2JZ / 4G63

**1JZ, 2JZ, 4G63  
New Release!**

*Everything is designed to make sure the camshafts are driven at the right valve timing even under severe conditions.*

Timing belt uses camshaft drive mechanism, its specifications are designed to be sufficient for standard engines. However, due to the using high spec tuning engine, high lift camshaft, and reinforced valve spring, etc., increase heat generated by the turbocharger, engine, It drastically deteriorates the durability of Timing belt.

TOMEI Reinforced Timing Belt is made by high saturated HNB-Rubber and reinforced glass core fiber. The gear facing fabric is made from Aramid fiber instead of standard Nylon to slightly increase the tensile strength.

**Comparison over stock belt**

- Lifespan: 3.5~4x longer
  - Frictional Wear: 2.5~3x
  - Heat Resistance: 2.5~3x longer
  - Tension Life: 2.5~4x
  - Rib life: **11x Longer**
- ※Renewed Belt Lasts 3~4x

Material	Standard Belt	Tomei Timing Belt	Benefits
Rib	Nylon Cloth	Nylon + Aramid	Increased Heat Resistance & Frictional Wear
Rubber	Standard H-NBR	Highly Saturated H-NBR + <b>Nylon Micro Fiber</b> <small>※4G63 BALANCER BELT: Highly Saturated H-NBR</small>	Increased Heat Resistance + Efficiency
Center Liner	Standard glass	High Strength Glass Fiber	Increased Heat Resistance + Increased Water Circulation
