BAFFLE STIFFENER for FA20DI

Stiffen up the crank case and optimize the oil lubrication all the time!

FA20 engine is know for its lack of stiffness in the cylinder block due to its boxer structure which has 2 separate crank cases bolted together. TOMEI Baffle Stiffener helps to stiffen up the block connection by its double-plyed structure.

■ **Keeps the oil from jumping / moving around too much**

Designed to prevent oil deviation and cavitation under hard driving by keeping the oil at where the oil pick up is at all times. The stable oil supply improves the engines reliability.

SPEC

MATERIAL	SUS304
THICKNESS - BAFFLE	1.5 mm
THICKNESS - STIFFENER	3 mm

APPLICATION: TOYOTA 86 / SCION FR-S / SUBARU BRZ

JPY 29,800

P/N: 194004
