ALUMINUM OIL PAN GASKET for NISSAN A

**Direct feed back from the
racing experiences
in the TS Race!**

**Improves clamping force and
rigidity of the block and oil pan!**

The stock cork gasket is flexible and seals good enough under light load, however due to its flexibility, it's a little too weak for high temperature and high load condition which eventually leads the bolts to come loose over times.

TOMEI Aluminum Oil Pan Gasket is designed to increase the block rigidity and prevent the bolts from coming loose which prevents oil leak at the same time.

SPEC

	TOMEI	STD
MATERIAL	A5052	CORK
THICKNESS	3 mm	3.1 mm

APPLICATION

A12/A13/A14/A15

※RWD applications with A type engines.

JPY 12,000

P/N:191297

RELATED PRODUCT

ALUMINUM OIL PAN for NISSAN A OIL CAPACITY 800cc UP!

Based on the design that was proven back in 70's in the legendary TS Race Series, revised and improved design.

Helps reducing oil cavitation and increasing overall engine performance.

TOMEI Aluminum Oil Pan Gasket is recommended together for even more block rigidity.

APPLICATION

※RWD applications with A type engines.

※Compatible with A12 (70mm stroke)

A12/A13/A14

※A14 requires to replace the conrod bolts etc.

JPY 180,000
