# OIL PUMP for NISSAN A SERIES

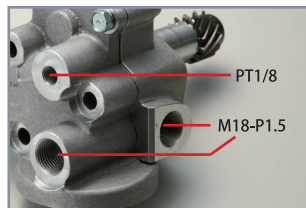

## For high-tuned Nissan-A!

Re-engineered to cover those highly tuned Nissan-A by the modern technologies.  
All new design to win the race.

### Not just for performance but also for convenience

The drive gear shaft is held both at the pump case side and at the cover side.

Equipped with a PT1/8 port for oil pressure gauge, as well as M18-P1.5 ports for an oil cooler.

The thick 20mm gear significantly increases the flow rate.

Easy installation, no need of backset adjustment of the gear with the o-ring sealing design.

<Repair part>  
Repair Oil Seal  
P/N:191301  
JPY 300

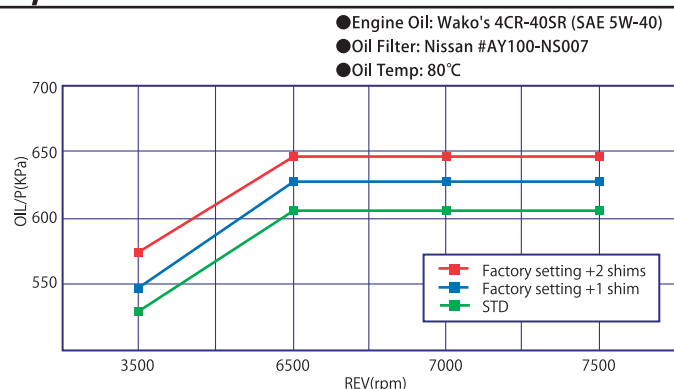

※Fittings for oil pressure gauge or oil cooler are not included in the kit.

APPLICATION: A12, A13

**JPY 128,000**

P/N:194014
