ORNAMENT PLATE

for
PS13, RPS13
is back!

Accent the engine room!

The metal ornament plate has been supported by Silvia users for many years as a part to decorate the engine compartment. The long-awaited revival of the metal ornament plate for PS13 & RPS13, which was once regrettably discontinued, is now available. In addition to the conventional hairline anodized type, a chrome type with a luxurious finish is also available.
