

TITANIUM MUFFLER

for BNR32
BCNR33/BNR34

Titanium Muffler System
TiRACING

This is the ultimate muffler!
Bringing out the performance of the 2nd generation GT-R!

The Ti RACING series of mufflers for the 2nd generation GT-R has finally been lineup.
The layout is as straight as possible, and the exhaust efficiency is ideal.
With the power of a sports muffler, vehicles equipped with this muffler produce a high-quality exhaust sound.

KIT CONTENTS	
MAIN PIPE A	SILENCER BAND
MAIN PIPE B	SILENCER BAND RUBBER
SILENCER	SOUND REDUCER
GASKET	BUTTON BOLT
FLANGE NUT M10 / M8	ALLEN KEY
FLANGE BOLT	BOLT SMOOTH PASTE
CLAMP BAND	ALUMINUM SPACER (for BNR34 only)
SPRING	

Full range of accessories
All gaskets, bolts, nuts, etc. required for installation of this muffler are included.

BNR32 P/N: 441008 BCNR33 P/N: 441009 BNR34 P/N:441010 **JPY 185,000**

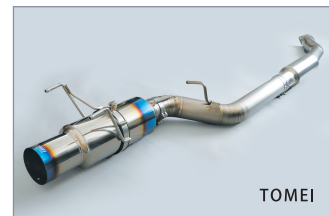

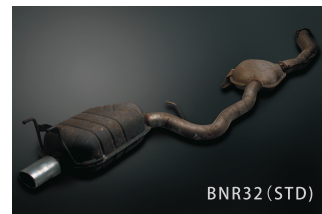

※FOR OFF ROAD USE ONLY

TOMEI POWERED INC.

Perfect balance of performance and exhaust sound

Not too thick, not too thin, and with an ideal specification that emphasizes exhaust efficiency for increased power without sacrificing torque.
The design also takes into account the exhaust volume regulations at various Japanese circuits in recent years.

The layout takes exhaust resistance & minimum ground clearance into consideration.

Bending and layout with no aperture suitable for competition.
However, the minimum ground clearance is also well secured with this muffler.

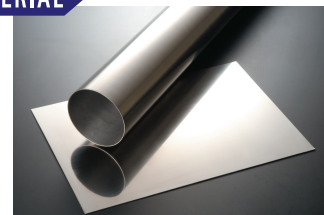

Sporty tail end

Titanium blue color & The TOMEI logo is laser engraved on the top to give the tail end a sporty look.
In addition, the angle of the overhang peeking out from the bumper has been made straighter, creating a more intrepid appearance when installed.

ORIGINAL TITANIUM MATERIAL

To ensure and maintain reasonable price, supreme quality and stable supply, this product is made from TOMEI original titanium material which is refined from raw material and made into performance parts all under quality controlled environment.

- STRONG

This strong and flexible titanium allows the extremely thin pipe walls which makes the entire system incredibly light.

DURABLE

High grade, amazing heat / corrosion resistance ensures stable performance and longer life.

HIGH SOUND QUALITY

The dry and powerful exhaust sound of a full-titanium racing layout muffler stimulates the racing mind.

GLASS WOOL(SILENCER)

The long fiber wool threads were adopted for the silencer. This type has proven to last longer than the traditional fiberglass materials even over a longer period of time with extensive high temperature exposure both at high and low pressures.

MAIN MUFFLERS

Large muffler shells eliminates problem of sound issues at the tracks without reducing performance.
Stamped TOMEI logo and gradation titanium color on the mirror finished mufflers.
