S.S.B. (SPORTS STEERING BUSH)

**Reproduction of
one of the best seller!**

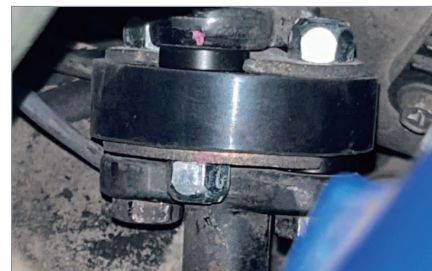

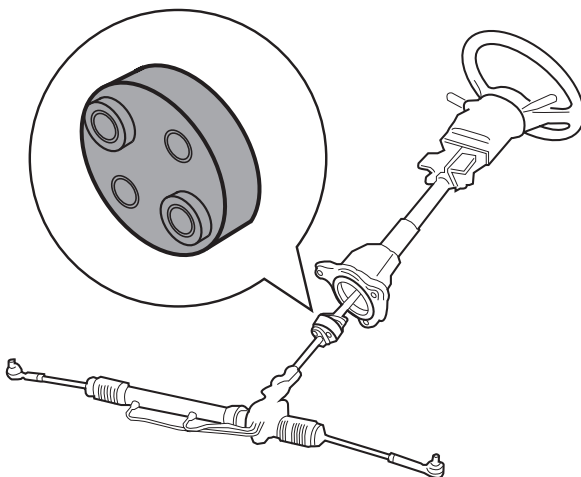

**Great choice also as a
replacement of worn bushing**

Discontinued parts including the steering shaft bushing is one of the biggest issues for those semi-classic car lovers including ourselves.

Considering the situation, we have decided to reproduce the S.S.B. (Sports Steering Bush) kit which was once discontinued long before.

This bushing kit can be used as a replacement of worn factory bush, as well as to upgrade the steering response and firmer steering feel from the reinforced rubber material compared to the factory stock bushing.
