

# TITANIUM MUFFLER

for RZ34/400Z

## Dual out exhaust system to unlock the true performance of RZ34

Optimizes exhaust flow by eliminating restrictions after the sub-muffler of the factory exhaust, as well as by its full 80mm setup from the Mid Y-Pipe while maintaining ground clearance. Designed to meet the recent sound level requirements of the tracks yet still focused on the flow-efficiency and weight reduction.

KIT CONTENTS	
MAIN PIPE A	MAIN PIPE B
MAIN SILENCER LH	MAIN SILENCER RH
SILENCER L	SILENCER R
COLLECTOR PIPE	END TIP
SOUND REDUCER/SILENCER	CONNECTOR STAY
SILENCER BAND LH	SILENCER BAND RH
SILENCER BAND RUBBER	BLIND PLUG
GASKET φ60 / φ80	CLAMP BAND φ60 / φ70 / φ80
SPRING	COPPER WASHER
FLANGE BOLT	FLANGE NUT
BUTTON BOLT	ALLEN KEY
BOLT SMOOTH PASTE	

APPLICATION : VR30DDTT RZ34/400Z

### HIGH FLOW DESPITE LOW NOISE

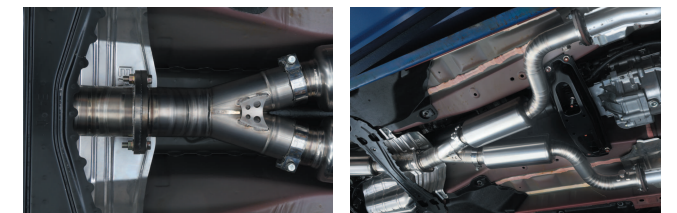

The exhaust system features a pipe layout routed along the right-hand side of the differential, splitting thereafter to optimize exhaust flow efficiency while maintaining sound levels. Each pipe diameter is precisely engineered to preserve torque while enhancing peak power, all within a significantly lighter design compared to the original system.

SPEC	TOMEI	STD(400Z) VR30DDTT
MATERIAL	TITANIUM	STAINLESS/STEEL
MAIN PIPE DIA.	MUFFLER	φ 80S- φ 70W
	Y PIPE	φ 63.0- φ 50W- φ 45- φ 50W
MAIN MUFFLER DIA.		φ 60.5W- φ 80S
		φ 45W - φ 63S
SUB MUFFLER DIA.		φ 152.0
		φ 120.0
END TIP DIA.&STYLE		φ 120.0
		SLASH CUT DUAL OUT
FLANGE THICKNESS		OVAL (H180 x W330 x L690mm)
		φ 101W
PIPE THICKNESS		OVAL, DOUBLE LAYERED / ROUNDED
		DUAL OUT
WEIGHT (MUFFLER+Y PIPE)		DUAL OUT
		8.0mm
	1.0mm	8.0mm
	14.8kg	1.5mm
	4.3kg reduction	19.1kg

### Full 80mm straight from the Mid Y-Pipe

The kit includes the Mid Y-Pipe section with enlarged diameter of 60.5mm compared to the original 45mm, that becomes to 80mm after the merge and connects straight to the rear section without restriction. The straight-through silencer on the Mid Y-Pipe eliminates rattles and tunes the sound.

### PRECISE-TUNED SOUND

A uniquely dry and powerful exhaust note exclusively from a full-titanium racing layout exhaust, precisely tuned for the RZ34 to maintain its elegance.

#### db TEST LEVELS

IDLING	74.0db
@4650rpm	98.0db

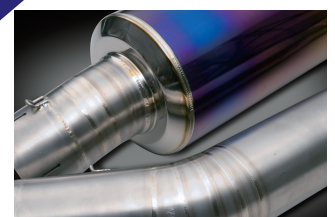

### SOUND REDUCER/SILENCER

The kit comes with end silencer baffles that can be attached as needed to comply with various environmental restrictions.

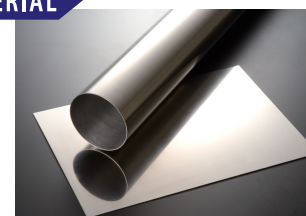

### PRECISE WELDING

Titanium is known as a difficult material to weld. Its strength, long-life and beautiful appearance all prove the true quality.

### ORIGINAL TITANIUM MATERIAL

To ensure and maintain reasonable price, supreme quality and stable supply, this product is made from TOMEI original titanium material which is refined from raw material and made into performance parts under all quality controlled environment.

**LIGHT WEIGHT /STRONG** This strong but flexible titanium material allows the extremely thin pipe walls which makes the entire system incredibly light.

**DURABLE** High grade, amazing heat/corrosion resistance ensures stable performance and longer life.

### END TIPS

Slash-cut, 120mm slide-able end tips can adjust the rear style to suite each bumper shape and preference. Titanium blue with laser marked TOMEI logo on the end tips. They together give it the great appearance and prove the best quality.

### HIGH QUALITY GLASS WOOL

Filled with even more glass wool comparing to the existing EXPREME Ti series to reduce and tune the sound. High quality long filament glass wool ensures durability and stronger against deteriorations from continues high heat and high pressure.

### MAIN MUFFLERS

Large muffler shells eliminate problem of sound issues at the tracks without reducing performance. Stamped TOMEI logo and gradation titanium color on the mirror finished mufflers.
