HEAD GASKET for FA20DI/FA24DI

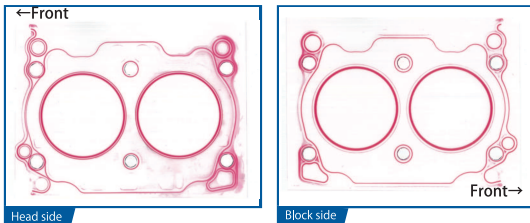

**Exceptional Sealing Performance.
A Metal Head Gasket You Can Rely On.**

HIGH SEALING PERFORMANCE

Optimum design of the bead line securely seals the water and oil lines.

GASKET SIDE PRESSURE MEASUREMENT RESULT

Surface pressure is equally distributed providing the optimum seal.

ABOUT MARKING

The new FA20//24 Head Gaskets come with a 3D die-cut logo, along with application, bore and thickness laser engraved. Please carefully verify the authenticity of the official logo to avoid imitation products falsely using TOMEI brand name.

DURABLE STAINLESS STEEL MADE

The bead top pry is made of durable but flexible SUS301. High heat radiation character of SUS301 helps transferring heat of the head and the block to coolant efficiently and prevents heat spots which causes gasket blow. SUS301 is also known for its tensile strength and it helps the beads to keep sealing the head and cylinder which repeat heat expansion and shrink all the time. This structural strength also improves torsional rigidity of the whole engine by improving coupling rigidity of the head and the block.

SUPER GROMMET DESIGN

The Super Grommet structure delivers secure, even, and reliable sealing performance.

TOMEI SUPER GROMMET TYPE

The dual sealing method of the bead structure & metal grommet, provides maximum sealing for the coolant, oil & gases around the bore circumference.

APPLICATION	Bore(φ)	Thickness(mm)	PART NUMBER	PRICE
FA20DI	89.5	0.7	1364895071	JPY 38,000
		0.8	1364895081	
		1.0	1364895101	
FA24DI	95.6	0.7	1365956071	
		0.8	1365956081	
		1.0	1365956101
