TITANIUM MUFFLER for SWIFT SPORT ZC33S

The racing exhaust system that brings out SWIFT SPORT's potential.

Engineered with a short, straight-through layout to maximize exhaust flow and response. By eliminating unnecessary components and using lightweight titanium, this system achieves a 7.4 kg weight reduction over stock, all through a simple tailpipe replacement. But performance is only half the story. This exhaust was developed not merely to increase volume, but to create a sound that resonates with the driver's instincts. The flared titanium tip ensures smooth gas flow while enhancing visual impact, producing a powerful, wide-ranging exhaust note beyond expectations for a tailpipe replacement. Experience lighter weight, freer breathing, and a sound that transforms every drive into an event.

**Compared to Stock
-7.4kg!**

APPLICATION SUZUKI SWIFT SPORT ZC33S

JPY 110,000

※FOR OFF ROAD USE ONLY.

SPEC

Upgrading from the 48mm stock pipe to a large-diameter, smoothly expanding tapered design (60.5mm→89.1mm), this system combines a short layout with optimized geometry to maximize exhaust flow efficiency.

	TOMEI	STD
MATERIAL	TITANIUM	STAINLESS STEEL
MAIN PIPE DIA.	Φ60.5	Φ48-48W
